

## **Snow**

Falling, flowing to the ground  
Flakes white gently sailing down  
Feathers in the draft, all over my black gown  
Falling, falling from my head

This strange snow swirls around me for years  
It never leaves, no reprieve, itchy behind my ears  
All over my skin, snow departs from raw  
What ever will I do to make this winter thaw?

Incredulously I watch  
As the snowstorm rages on  
Unchecked, neglected, growing  
And the snow keeps coming down  
Falling, falling from my head
