

## *Unbreakable pattern*

*An unbreakable pattern looms above my head  
Turning, reaching into focus  
Scattering to dust beneath my bed*

*I grasp at handfuls that slip through my fists  
They tease me into their twisted bundles  
Expose me to my own rifts*

*And if I follow these patterns to their end  
They lead me dancing into circles  
I see them, stop me, I see them*
